Hi Dan,
I just did a quick scan and think all their edits are fine.

Kathleen, let us know if you think otherwise.

Are we supposed to send a final version back to the tribe or is it sufficient for you to let BJ know that we accepted their changes? Also, I don't see the need for a call with the tribe to discuss their edits, and I'm assuming they understand these are talking points and are not going into the written decision documents. Thanks.

Dan,
I am sending a redline version. My apologies for not getting these too you sooner.
Once you review we can discuss so you can understand some of our thoughts on why we requested some changes to the original document.

Thanks

BJ Kieffer

BJ --

I am later getting you these than I had hoped, but I wanted you to have a chance to see these and perhaps give me some feedback. Tom Eaton would plan to essentially follow these points at the Spokane River Task Force Wednesday morning.

I'd appreciate hearing from you if you think we missed something, got something wrong, or if you think we need more or less emphasis somewhere.

Feel free to call me at 206-553-1855 if you would prefer that to email.

Thx, DanO.
